Factory Stock Criteria

Valley Mustang Club

The Factory Stock category is designed for the Mustang owner who has maintained their car in original show room condition. This may include dealer options. Participants must submit to an inspection to prove Factory Stock status if requested.

Allowable Exceptions Include: Battery, tires of original size and mechanical replacement parts as long as they are of the original type such as starters, water pumps, shocks, muffler, oil filter, belts and hoses. Radio may be replacement type only if intended for original dash opening leaving dash un-altered.

Non-Allowable: Paint that does not match data plate, aftermarket stereo, speakers, antenna and steering wheel. Non-original engine modifications. Tires that are not of original size, wheel/covers that are not original. Trunk not in original condition.

This criteria is provided as a general guideline only and may not include all of the allowable or non-allowable exceptions. Designated VMC judges will make the final determination regarding qualification to enter the Factory Stock classes based on the rules and guidelines as defined by the Valley Mustang Club
